Department of International Studies

The Department of International Studies at Hallym University of Graduate Studies (HUGS) offers a wide range of courses involving domestic and international politics for the Master's Degree (Master's in International Studies/36 credits) program. In particular, the Department provides foreign and day-time working students with custom-tailored and in-depth studies for their individual needs.

The Department has long maintained academic and policy contacts with a variety of universities, research institutes, and associations in Korea and beyond. The faculty members, consisting of full-time professors and adjunct scholars, are known for their publication records with extensive experiences in the field.

Currently the Department of International Studies provides five major programs: 1. Diplomacy and Security Studies; 2. International Interpretation Studies; 3. Taiwan Area Studies; 4. Politics Management Studies; and 5. Korean Studies.

- »» **Diplomacy and Security Studies**
- »» **International Interpretation Studies**
- »» **Taiwan Area Studies**
- »» **Politics Management Studies**
- »» **Korean Studies**

Chair, Department of International Studies
Ik Joong Youn (youn@hallym.ac.kr)

Department of **Convention and Event Management**

Hallym University of Graduate Studies (HUGS) offers the best Master's Degree (Master's in Business Administration/36 credits) program in the Meeting, Incentive travel, Convention, and Exhibition (MICE) field in Korea.

We are very proud to note the fact that most MICE industry leaders in Korea are HUGS alumni. We have an active school advisory committee consisting of industry leaders, who provide advice on student education and development. We held Hallym Global MICE Leadership Forum annually and ICES (International Convention & Expo Summit) every other year. It is a good chance to network between academic and industrial sect. The 4 majors we provide are as follows:

- » **Convention and Exhibition Management**
- » **Event Management**
- » **Medical Tourism Management**
- » **Tourism and Travel Management**

Chair, Department of Convention & Event Management
Yoo-Hong Kwon (yoohong@hallym.ac.kr)

Department of **Audiology**

The Department of Audiology at Hallym University of Graduate Studies (HUGS) offers Master of Science (MS) degree. Our program is based on a practice-to-research philosophy. Through our cutting-edge facilities and powerful industrial partnerships, we train future clinical audiologists and hearing scientists who will treat millions of hearing-impaired people.

Our graduate curriculums emphasize excellence in clinical practicum and advanced research work in Audiology. A minimum of 36 credit hours of mandatory and selective courses is required for graduation. Mandatory courses are General Hearing Evaluation, Special Hearing Evaluation, Hearing Aid Evaluation & Fitting, Cochlear Implant Evaluation & Mapping, and Clinical Practicum for Audiology I-IV. Selective courses are also available from diverse fields of Audiology such as Psychoacoustics, Geriatric Audiology, Pediatric Audiology, Industrial Audiology, Audiologic Rehabilitation, Sign Language, Anatomy and Physiology of Hearing, and Vestibular Assessment and Rehabilitation.

Chair, Department of Audiology
Jaehee Lee (leejaehee@hallym.ac.kr)

Department of American Law

The Department of American Law is committed to preparing graduate students for becoming Korea's leading experts on the U.S. Law to deal with the increasingly globalized market by offering the following features.

» **Dual Degree Program:** Our dual degree program with **Northwestern University School of Law** offers students with a chance of getting into a top-tier law school and receiving the LLM degree.

» **Bar Taking Eligibility:** Upon completion of the minimum number of credits of courses provided by our partner law schools that are American Bar Association (ABA)-approved, students will be qualified to take the **District of Columbia** Bar Examination.

» **Bar Exam Preparation:** The major concentration of the courses is to enable students to acquire and hone their legal knowledge and skills used to pass the bar exam.

» **Conflict Resolution Skills Training:** Recognizing the value of good communication or dispute resolution skills, our department offers students with the comprehensive training courses necessary to be successful in mediation, negotiation, and facilitation of dialogue.

Chair, Department of American Law
Young-Min Kim (minii@hallym.ac.kr)

Department of **International Radiological Sciences**

- *Strengthening professional competency that is required for high-ranking managers;*
- *Cultivating talented researchers with diversity and creativity; and*
- *Producing professional and talented people through overseas training*

The Department of International Radiological Sciences conducts research and development in convergence disciplines to realize the development of social science that combines science and engineering with computer engineering, humanities and sociology. To this end, the Department provides research program that radiation is used in the field of technology and science related to diagnosis and treatment of disease for the health of society and humans and in the field of radiology that focuses on radiological science as an applied science.

The Department provides major curriculums that cultivate research leaders who have global competitiveness. The major curriculums help students to learn academic theories in the major fields of study and master sophisticated knowledge and skills that can be connected to new science.

The Department ensures that students are able to cultivate their capability to resolve problems actively based on their knowledge that is converged with a creative and scientific way of thinking, and that they can grow up to become experts in the fields of education & research in radiological science and radiation that take the lead in the development of modern science.

Chair, Department of International Radiological Sciences
Hanjoon Yang (hanjoon.yang@hallym.ac.kr)
